Subject Omega Chemical OU-2 Groundwater Sampling June 2004 -
Update

Hi Chris,

The Omega Chemical OU-2 sampling will begin tomorrow. I will initiate sampling activities at the OPOG wells, then the EPA wells later this week or early next week. I anticipate completing all sampling activities by mid-next week.

CDM has forwarded the key to the OPOG wells so I assume OPOG has agreed to allow CH2/EPA to use the dedicated tubing.

Unless I hear otherwise, I will use the dedicated tubing for sampling/purging OPOG wells.

Please contact me if you have any questions or concerns. You may reach me at 949.307.4364.

Regards,

Dan Jablonski
